Sandesh Sitaula

Full Stack developer

kankai-2 ,Jhapa (Nepal) , Kankai • 9823632078 • sandeshsitoula6@gmail.com

Hello, I'm Sandesh Sitaula, a dedicated BSc. CSIT student at Mechi University with a passion for Full Stack web development. Over the past three years, I've honed my skills primarily in backend development, contributing actively to various web projects. With a strong foundation in programming and a proactive approach to learning, I strive to leverage my expertise to create efficient and innovative solutions in the field of technology

EXPERIENCE

Backend Developer   Starksville,USA

Fractal Networks   Dec, 2022 - Present

At Fractal Networks, a US-based company, I serve as a Full Stack Developer, specializing in Django, React, and occasionally Node.js. My role involves contributing to large-scale projects, collaborating seamlessly with teams, and consistently meeting project deadlines. Through this experience, I've gained invaluable insights into project management, teamwork, and the dynamics of working in a fast-paced, innovative environment."

Backend Developer   Canada

DragMe   Oct, 2021 - Nov, 2022

At Drag Me, I served as a Backend Developer, specializing in Django and Node.js for building robust APIs. My role primarily involved designing and implementing efficient backend solutions to support the company's applications. Working closely with the team, I contributed to the development of scalable and reliable systems, ensuring seamless integration of frontend and backend components. This experience equipped me with valuable skills in API development, problem-solving, and collaboration within dynamic project environments."
